The sensem Eng of Quisto did not proceed on her trip to Kingston this morning, the gain being too heavy to per-nit her attempting the Journey through the Gap. This gale will no doubt be pro-ductive of much disaster to shipping in our inland waters. In forw, the effects of the wind are visible in almost every direc-tion. The wires of the Domision Telegraph on Bridge Street are down. The smoke stacks of Finit & Yeomany, and Ross' steam saw mills, have been prostrated by the strength of the blast willts porches and other exposed parts of houses have saffered avereigy. The angual-Pair and Cattle Show of the Ameliasburg Agricultural Society was held at Robilin's Mills on Saturday, and proved very successful in every respect. The weather, not withstanding the gloomy properce arily in the foredoop, turned out as dine and beautiful as a bright October day could possibly be. The number of entries were greater than at any previous exhibition of the Society, and as far as attendance was concerned, one would famry that the whole towership had turned out se masse, to be present. Quite a number from Picton and other parts of the country were sho there.

The display was certainly a very credit-
